Accounting Technician Apprenticeship

A supportive career pathway to foster success in Accounting

WHY CHOOSE ATI

- Fastest route to a rewarding and stable career in accounting via work-based learning programme
- Earn at least the minimum wage - €26,325 annually as you work towards a QQI Level 6 Advanced Certificate in Accounting
- Pay tuition fees - apprenticeship programme is fully funded by SOLAS
- Become a Member of Accounting Technicians Ireland (MIATI) and enjoy increased earning power

Features of the Accounting Technician Apprenticeship

- You'll be mentored in the classroom and the office throughout this work-based learning programme
- You'll get paid study leave each year to help you prepare ahead of your exams
- Graduates can complete further professional studies with the ATI Level 8 Apprenticeship Degree - Bachelor of Science in Accounting Technology
- Developing a renowned career for the future. Accounting Technician skillsets are always highly sought after by employers in all sectors.

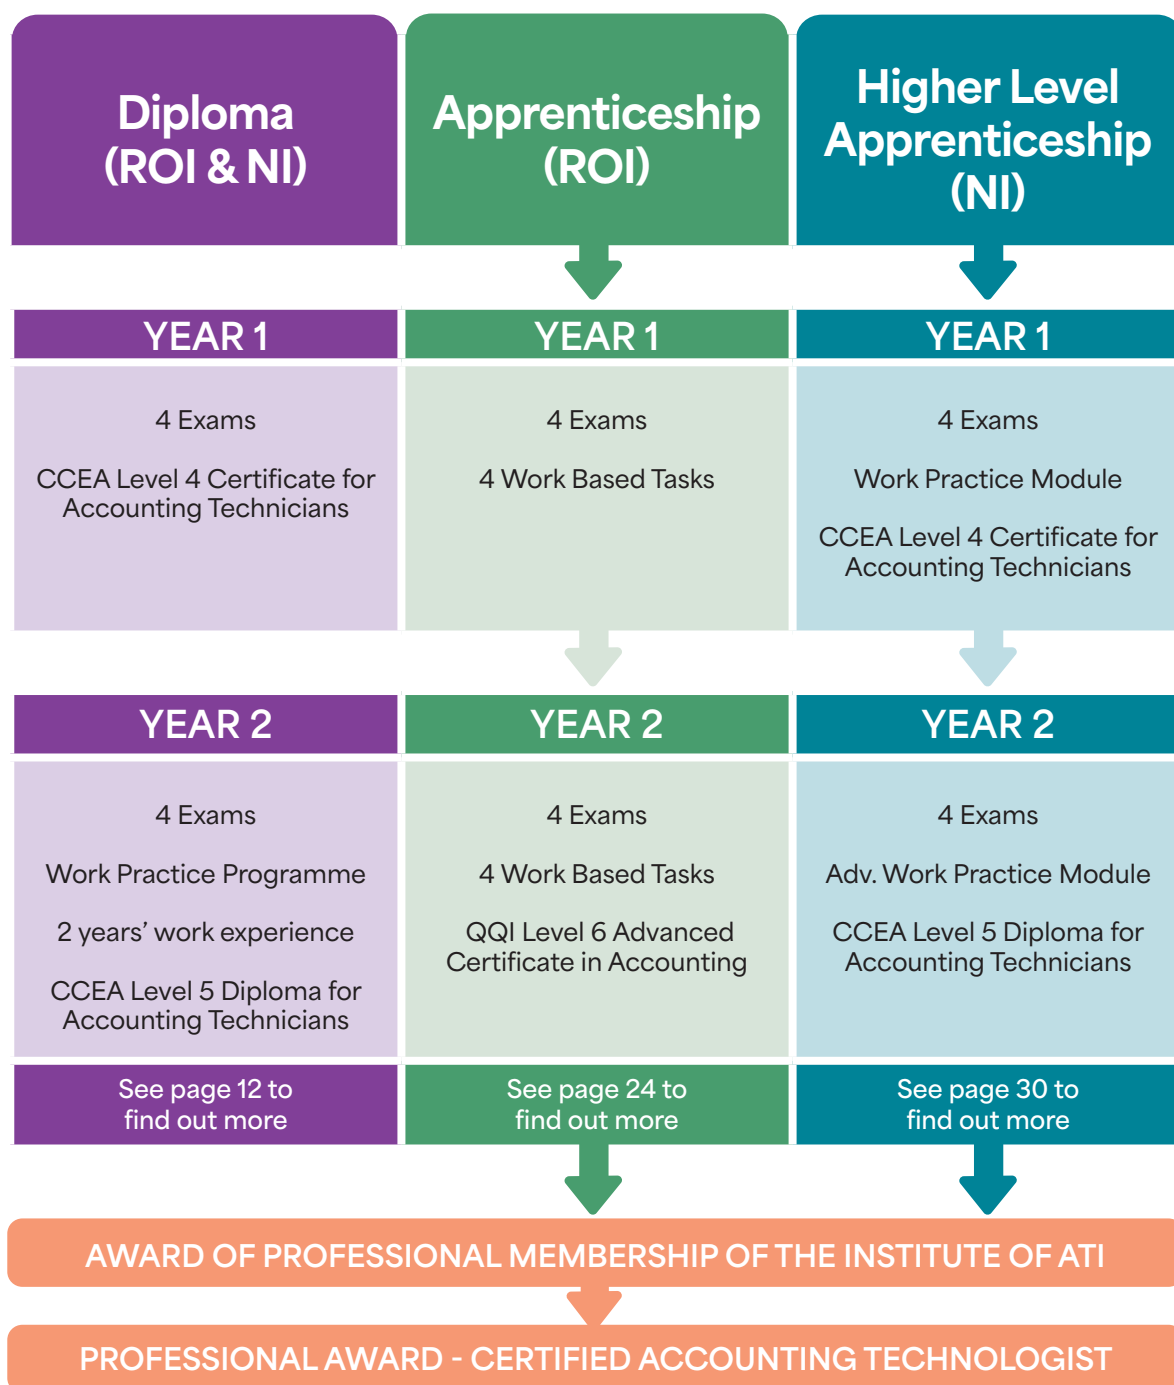

"The ATI Apprenticeship programme has been extremely beneficial for all involved. Aramark has had many apprentices and we believe they get a lot of valuable knowledge during their study but also exposure working in a company setting at the same time. These apprentices are equipped with critical skills and competencies in Accounting which makes them a valuable employee to progress within the company. We always strive for success and remarkability so being involved in this programme is an excellent pillar to us achieving it."

Milena Kostova, Finance Manager, Aramark
